markilux 930 | The Mobile One This awning moves differently from the rest, because as you retract the markilux 930, the awning pivots into a horizontal position and disappears below the soffit. When extended, the angle of the pitch can be up to 80 degrees – so if required, the awning can pivot almost to the vertical. The markilux 930 is perfect for all balconies and eaves that require no additional protection of the awning or awning cover. This awning allows you to enjoy being outside in the evening even when the sun is low in the sky.
